

Com.-No. 2246

SARONNI CNC – Roller Feed Type 64/127/400

Technical Data:

Strip width capacity		400 mm
Strip width	min	80 mm
	max	400 mm
Strip thickness	min	0,5 mm
	max	3,0 mm
Roller diameter		127 mm
Number of rollers		2 pieces
Roller lifting		hydraulically
Feed speed	max	120 m/min
Feed length, adjustable	up to	10.000 mm
Feed accuracy	max	+/- 0,1 mm
Service voltage		380 volt
Control voltage		24 volt
Control		CNC – one axle control
Height of strip entry		according to your indications
Direction of strip entry		according to your indications, i.e. from the left or the right side
Year of construction		1998

Price + delivery time:

on request

Errors excepted.

All technical data, dimensions and so on are according to the indications of the manufacturer and are without obligations for us.

Subject to availability and interim sale.
