

Com.-No. 2247

RASTER – CNC – Roller Feed Type WA-127/300

Technical Data:

Strip width capacity	300	mm
Strip width	min 20	mm
	max. 305	mm
Strip thickness	min 0,3	mm
	max. 4,0	mm
Roller diameter	127	mm
Number of rollers	2	pieces
Roller lifting	pneumatically	
Feed speed	max. 120	m/min
Feed length, adjustable	up to 10.000	mm
Feed accuracy	max. +/- 0,1	mm
Service voltage	3 x 400 Volt / 50 Hz	
Control voltage	24	Volt
Control	CNC – one axle control	
Height of strip entry	according to your indications	
Direction of strip entry	according to your indications, i.e. from the left or the right side	
Year of construction	1988	

This feeder is mechanically overhauled with a new SPS-control unit.

Price + delivery time

on request
