

## Com.-No. 2269

### **CNC – Roller Feed Type MWH – 120**

#### Technical Data:

Strip width capacity		120 mm
Strip width	min	5 mm
	max	120 mm
Strip thickness	min	0,1 mm
	max	2,5 mm
Roller diameter		40 mm
Number of rollers		2 pieces
Roller lifting		pneumatically
Feed speed	max	140 m/min
Feed length, adjustable	up to	10.000 mm
Feed accuracy	max	+/- 0,10 volt
Service voltage		220 volt
Control voltage		24 volt
Control		CNC – one axle control
Height of strip entry		according to your indications
Direction of strip entry		according to your indications, i.e. from the left or the right side
Year of construction		n e w

#### **Price + delivery time:**

**on request**

Errors excepted.

All technical data, dimensions and so on are according to the indications of the manufacturer and are without obligations for us.

Subject to availability and interim sale
