

Com.-No. 2280

CNC – Roller Feed Type MWVB-360

Technical Data:

Strip width capacity		360 mm
Strip width	min	5 mm
	max	360 mm
Strip thickness	min	0,2 mm
	max	5,0 mm
Roller diameter		100 mm
Number of rollers		2 pieces
Roller lifting		pneumatically
Feed speed	max	150 m/min
Feed length, adjustable	up to	10.000 mm
Feed accuracy	max	+/- 0,1 mm
Service voltage		380 volt
Control voltage		24 volt
Control		CNC – one axle control
Height of strip entry		according to your indications
Direction of strip entry		according to your indications, i.e. from the left or the right side
Year of construction		n e w

Price + delivery time:

on request

Errors excepted.

All technical data, dimensions and so on are according to the indications of the manufacturer and are without obligations for us.

Subject to availability and interim sale.
